1600 SERIES

Legend

BL 1600

The newest model from Seating Concepts carries a cornucopia of features and benefits. The stylish BL 1600 Legend aisle panel adds flair to the venue, yet the structure is versatile enough that you can select from just about any of our existing panel designs or add a custom design. The innovative Hide Away center armrest allows the armrest to completely stow between the back cushions while lifting a spanner cushion to nestle between the seat cushions. The back and seat assemblies have several different treatments that can add durability and upscale finishes to the chair appearance.
